# President's Message

---

Happy Spring!

Our Events page is starting to fill up. Make sure to check it out, there may be something you might want to attend. We also have our premier events to look forward to. The National Field Trial Specialty in Maine and the National Show Specialty in Florida. Every event lists details and a contact person.

The Health Survey deadline is fast approaching, if you are considering participating, don't wait! You can find all the details to register on the Health page of the website.

## ***"Have you ever considered volunteering for your club?"***

Have you ever considered volunteering for your club? Do you have talents that would fit one of the job openings? If you answered yes to at least one of those questions, I hope you will apply. You can find a complete list of job openings in the Member Portal on the Jobs Board. They are also listed on the announcements page in your Bulletin. Each opening will give a brief description and requirements for the job. If you have questions, don't hesitate to reach out to the Volunteer Coordinator.

I hope everyone is looking forward to the change of seasons as much as I am. Lets get out there and do something fun with our dogs.

Regards,

*Tina*

**VOLUNTEERS ARE THE HEARTBEAT OF OUR CLUB.** It is a great way to get to know other members and learn more about the club.

This new Jobs Board is a part of the ACC's revamped volunteer policy. Our goals are to improve communication and access to information about volunteer opportunities. All volunteer applications will be managed by a Volunteer Coordinator and Board members will give all applications fair consideration. You can expect to receive acknowledgement of your application and updates regarding its status.

If something catches your eye and matches your experience, skills, or interests, you'll see an "apply" button within each job listing.

Check out the website for positions available or contact the Volunteer Coordinator at [volunteer@amchessieclub.org](mailto:volunteer@amchessieclub.org)

## 2024 ROYAL CANIN

RWB: Next Generations Comin' In Clutch JH. Dog. BREEDER: Jackie Kartak/Adam Levy. By CH Next Generations The Perfect Gentleman MH - CH Next Generations Let Freedom Ring MH. OWNER: Tiffany McCann.

# 2024 Obedience Classic

## 2024 Obedience Classic

Jill Conroy and Bernie CH Dut-Chesse To Auburn And Back CD RN SH OA NAJ NF CGC went to the Obedience classic this year because she finished her CD (companion dog) title. We were going anyway with Callie for agility, so what's one more dog. Bernie actually held it together most of the time. (Those who know Bernie know that she is a very impulsive dog!). She did all of her exercises and qualified in 3/4 of the times in the ring. The one time that she NQ'd was the simplest exercise "sit and get your leash". Bernie just had to SIT while I walked across the room and return with her leash. Nope, I turned to face her and she was right there saying "hi, mom". That cost us 30 points but the look on her face was priceless. I think I dreaded the long sits and downs because Bernie has been known to do the "worm" on the long down. Again, she was able to hold it together. I am really proud of her and how she tried so hard to behave!

# 2024 Agility Invitational

## 2024 Agility Invitational

Chesapeake Bay Retrievers were well represented at the 2024 AKC Agility Invitational in Orlando, FL. We had all spots filled - 5 regular and 1 preferred and came from all over the country! Our two 20-inch jump height dogs finished 16 (Deshka) and 32 (Callie) out of 119 competitors and our four 24-inch dogs finished 10 (Nelchina), 29 (Leonidas - as 20-inch preferred, he competes with 24-inch group), 40 (Kian) and 41 (Rainey) out of 121 competitors. The group collected 18 clear rounds (Clr -100 points) and 6 not clear rounds due to just one mistake each (NClr - 95 points)! Overall, our group ranked in the top 34% of all the exhibitors! Nelchina earned a spot in the Finals and finished 6th out of 11 in the 24-inch jump height. Group picture from left to right: Keith Staub and Rainey (FL), Dennis Kirkpatrick and Kian (NC), Lynda Barber-Wiltse and Deshka and Nelchina (AK), Thomas Martin and Leonidas (MI) and Jill Conroy and Callie (NY).

Deshka and Nelchina

Deshka (GCH CH MACH Nuka Bay's Deshka River Mexicana BN RE MXG MJG XFT2B DJ DN CGC TKI)

Nelchina (CH MACH2 Nuka Bay's Nelchina Glacier Brown BN RE MXS MJG XF T2B ACT1 CGC TKI) and I, Lynda Barber-Wiltse

had a wonderful time at the 2024 AKC Agility Invitational! Nelchina ranked #2 and Deshka #3 out of the top 5 Regular class Chesapeakes invited to the competition. Even

though our home in Alaska is about 4,750 miles from Orlando, this was my 10th year competing at the Agility Invitational and I have had at least one dog invited every year since 2010. Deshka and Nelchina follow in their maternal grandmother Inde, paternal grandfather Zephyr (with Doreen Palmer), mother Niki, and father Kach's pawprints as competitors at the AGI. Litter sisters Deshka is my 4th dog and Nelchina my 5th dog to earn invitations. They are a lot of fun to train and compete with. This was the first time I competed with two dogs and had to frequently walk and run courses in different rings! Both girls had a 100% Q (qualifying) rate for the weekend! Friday started with Q's in the warm up T2B (Time to Beat) classes then continued through the weekend. Deshka earned the American Chesapeake Club sponsored Breed Medallion (for the highest cumulative score) and Nelchina earned a spot in the 24-inch Finals Round and placed 6th (out of eleven 24- inch finalists). This was my 2nd time competing in the Finals - Inde also placed 6th in 2011 from the 20-inch class! It is always fun to spend time with our fellow Chesapeake Bay Retriever friends and cheer on CBR's competing in all the events.

Callie (CH MACH Pond Hollow Dut-Chesse Callista CD BN RN SH MXS MJS OF CGC TKI) and Jill Conroy

This was Callie's second year participating at Eukanuba and she's still got it. The one mistake made was that I told her to "switch" too soon. She turned before the jump, not after. Totally, my fault. Callie is always nervous waiting to get into the ring, but once there, she's all business. She actually runs with a smile on her face. It was a fun environment with 5 other Chessie teams - hopefully, back next year.

Leonidas (HRCH GCH\* CH PACH7  
Curly's One For Sparta BN RN MH  
MXP17 MXPS2 PADP MJP18 MJPG2  
PAX7 OFP T2BP BCAT DS CGC TKN WDQ)  
and Tom Martin

Leonidas comes rolling into the 2024 AKC Agility Invitational as the AKCs Top Breed PACH Dog for the sixth consecutive year. It's always a good time in Orlando reacquainting with old friends and making new ones. The Chesapeake Bay Retriever contingent was as good as any in recent memory and truly represented the breed well. Most notable was the camaraderie amongst Team Chessie. Leo had a fabulous three days competing; qualifying in the Friday warmup round and the first three rounds of the AGI. Going into the fourth and final qualifying round we were already in Finals position and just had to run a clean round to make our third AGI Finals appearance. Right out of the gate a bar went down at jump #2. Did I crowd the line, was my cue late, did he take his eye off the ball? Just like that - we're out. Oh but what a rush heading into the final round of competition in the hunt with everything on the line. Great dog, great times in Florida. We're campaigning hard and planning for a return trip in '25. As always owned, hunted, and handled by Tom Martin

Kian (GCH CH Susquidilla Kian  
Maccool MX MXB MXJ MJB XF T2B2  
DS DJA HDN CGC FTN) and I, Dennis  
Kirkpatrick

were honored to be invited to the AKC agility invitational for the second year in a row. We had such a great time visiting with some of the top Chessie agility teams this year. We went in very prepared and we had better results this year. Running clear rounds in Hybrid and the second jumpers with weaves round. A handler error in each of the other rounds caused one fault in each. We'll try hard to get invited again this coming year. It's such a fun event that if anyone gets a chance to go I highly recommend they do.

## New AKC Champions

"Dory" BISS CH Bohemia's Just Keep Swimming DS

(GCHG CH Hudson Bay BN RN SH THD x GCHP CH Wayland's Wild Cherry Lifesaver, BN RN CA DM DS AS) was selected Best of Breed and Owner Handler Best of Breed on December 1, 2024 at the NCCBR Concurrent Specialty Show by Judge Mrs. Nancy A Tuthill. Dory is owned by Josh Nachtigall, Maren Nachtigall, Owen Nachtigall and William Chrzanowski and was bred by Valerie Vollmers. Dory finished her championship title on June 16, 2024 at the Bryn Mawr KC show by going Best of Winners and Best of Breed Owner Handler for a 3-point major under Judge Mr. Michael Looby. On October 19, 2024 Dory was awarded Best Opposite Sex, Best of Breed Owner Handler, and Owner Handler Group 4 by Judge Neal Goodwin. In addition to her busy show schedule Josh managed to qualify Dory for her Dock Diving Senior title at the Penn Ridge KC show August 11, 2024.

"Mala" CH Bohemia's Mala Of Chesastar, BN RN JH

(GCHG CH Chesastar Hudson Bay, BN RN SH THD x GCHP CH Waylands Wild Cherry Lifesaver BN RN CA DM DS AS) finished her championship on December 15, 2004 at the Delaware Water Gap Kennel Club, Inc. under judge Mrs. Linda M Riedel. Mala is owned by Michael and Jan Sosik and was bred by Valerie Vollmers. We would like to give special thanks to Tawnya Vollweiler for not only handling Mala to her conformation championship but also handling her to her RN this Fall.

## Pasco County KC Supported Entry (FL) - January 11, 2025

The 7th Annual ACC Supported Entry was held on Saturday January 11, 2025 at the Pasco County KC All Breed Show, Brooksville, Florida.

We started celebrating Friday evening January 10th at our favorite Italian Restaurant, Papa Joe's. An evening of delicious food, great company, and a silent auction was topped off by our own Sally Taylor receiving the AKC Good Sportsmanship medallion, presented by ACC Board Member, Kathleen Luthy. Sally truly deserves this award! She is always there to give encouragement and to lend a helping hand. Sally is known and loved by a huge dog show family.

The day of the Supported was cold and damp, but that didn't stop everyone coming out and having a great time showing their dogs. I want to thank Mike McCarthy for traveling to Florida from New Jersey to judge our Sweepstakes this year. He had a lovely field of 15 dogs entered between Puppy, Veteran and Hunt Test/Field Titled dogs.

Regular judging of 38 entries was by Mrs. Vicki Abbott. She had a beautiful entry to choose from. She told me later that over all we had a great representation of our breed, making her job a challenge.

Huge thanks to Robert and Alicia Patterson, who once again arranged our fantastic banquet and are always there to help where needed. Rumor has it that Rob might take over as Chair for me next year. Thanks to Maureen Groves who keeps the Silent Auction organized and to Hannah Brown who made sure it ran smoothly. Carolyn Johnson is always ready to jump in and provide Fromm Glam bags for everyone who enters.

I couldn't do this year after year without the help and support I get from all the Florida folks, and to everyone who sponsors trophies year after year, Thank you!!! I'm stepping down as the Supported Chair but I'm leaving it in great hands. God Bless you all and keep supporting those Brown, Deadgrass and Sedge Clowns we love so much.

- Karen Brown, ACC RD Florida

### Sweepstakes Results:

Judge: Mr. Michael McCarthy  
Entry: Puppy (2-4) / Veteran (0-1) /  
Hunt Test/Field Trial (2-6)

# Westminster Kennel Club

February 11, 2025

Judge: Mr. Richard W. Powell      Actual Entry: 4-4

**Best of Breed and Group 2 Westminster Kennel Club**  
MBIS NBISS MBISS GCHG Next Generation's Accelerate "Cota"

continues to make breed history! Not only did he win Best of Breed at the 2025 Westminster Kennel Club for the second year in a row, but he was also awarded a Sporting Group 2, another first for Chesapeakes! This year, WKC returned to the iconic Madison Square Garden in NYC for the evening Groups competition, and the crowd, layout, and competition were outstanding. Our team is so proud of this

dog, what he and Devon have accomplished in just over a year is nothing short of incredible. He exemplifies true Sporting dog and Chesapeake purpose, excelling in the show ring, out in the field, and in everything we ask of him with enthusiasm, competence, and pure joy. Good boy, Cota! Bred by Adam Levy. Owners Melissa Schumann, Adam Levy, Dana Bleifer DVM, Dr. Katherine Scribner, Dr. Trevor Gerardi-Miller. Presented by Devon Kipp Levy. Sire: GCHG CH Next Generation's Have Mercy, MH. Dam: GCH Next Generations Off The Rails, JH CGC TKN.

**Best of Opposite Sex Westminster Kennel Club**  
BISS CH Bohemia's Just Keep Swimming DS "Dory"

was selected Best of Opposite Sex at the Westminster Kennel Club Show in New York City, New York by judge Mr. Richard Powell on February 11, 2025. Dory is owned by Josh Nachtigall, Maren Nachtigall, Owen Nachtigall and William Chrzanowski and was bred by Valerie Vollmers (GCHG CH Hudson Bay BN RN SH THD x GCHP CH Wayland's Wild Cherry Lifesaver BN RN CA DM DS AS). Dory was shown by co-owner Josh Nachtigall and was cheered on by the members of Team Dory.

**Select Dog:** GCHB CH Next Generations This Is How We Roll. Dog. Breeder: Adam Levy & Max Broton-Anderson. Owner: Meg McNamara. Sire: GCHP CH Sandbar's Hardcore Hank MH. Dam: CH Next Generations Black Diamond JH.

**Select Bitch:** GCHG CH Bohemia's Titanic Rose Heart Of The Ocean. Bitch. Breeder: Valerie Vollmers. Owner: Valerie Vollmers & Chase Otley. Sire: GCHB CH Pond Hollow Blue Ridge Rebel CGC DJ. Dam: GCHP CH Waylands Wild Cherry Lifesaver BN RN CA DM DS AS.

**AOM:** GCH CH Pond Hollow The Marsh Marigold CGCA TKA.

Bitch. Breeder: Dyane M Baldwin. Owner: Katherine Grizzanti & Dyane Baldwin. Sire: GCH Chessieville Bay Viking Warrior. Dam: GCHS CH Pond Hollow The North Wind.

## AKC NOHS Regional Event (FL) - February 14, 2025

Lakeland Winter Haven Kennel Club hosted the first AKC NOHS Regional of 2025. NOHS Regional events are worth 2x the normal NOHS points needed to be qualified for the NOHS National event in Orlando for 2025!

Best of Breed/NOHS Regional (FL): CH Savanna Oaks Reflection on Gulf Water CGC DS (CH Gulf Water's Brigantine Flyer Over Indian River - GCH Duchess Darla Of Savanna Oaks CGC) was awarded BOB at the AKC NOHS Regional held in Lakeland FL under judge Karen Hynek. It was very special as she was competing against a beautiful line up of Chesapeake's! "A.J" as she is affectionately known, is a fan favorite at all events. Her winning personality warms all hearts. We are very proud of her! Bred by Rodney and Jayne Carson. Owned by George and Carolyn Johnson.

## Hunt Test Headlines

### New Junior Hunter

CH Whispering Oak No Place Like Home JH "Ruby"

(GCHB CH Susquilla's Dark Shadows x GCH CH Whispering Oak Josie Wales DS DJ) Karen, Jim and Hannah Brown are pleased to announce that on February 7, 2025, at the Mid Florida Golden Retriever Club's Spring Hunt Test, Ruby successfully completed the requirements to earn her AKC Junior Hunter Title. Trained by Eddie Rogriguez of Powerline Retrievers, Ruby is eager to learn and quick to adapt. She passed 4 out of 5 junior tests with flying colors. We are looking forward to seeing what she can accomplish in the future as she continues to grow and excel.

The ACC Hunt Test Committee would like to congratulate Committee member John Gammon and Willie on qualifying for the Master Amateur and the Master National! As John's term comes to a close we would like to thank him for serving on the ACC Hunt Test Committee

# AKC Hunt Test Fundamentals

By Tom Martin

Have you ever thought about getting into the hunt test game but don't know where to start? Maybe you want to elevate your training program, challenge your dog to reach its full potential, or just have fun.

Hunt tests are a pass/fail. The dogs are evaluated against a written standard that has been established for the test being run. AKC Hunt Test levels are Junior, Senior, and Master. The Hunt Tests are meant to resemble true hunting situations. Expect to see anything that you would normally experience while upland or waterfowl hunting. Expect to see decoys on both land and water, duck calls, and camouflaged blinds used to conceal guns, throwers, guns and birds – typically mallard ducks. Shot flyers can be used at all three levels but are only required at the Senior and Master levels.

**Junior:** The entry level. The Junior Hunt Test will consist of a land series and a water series. Two single marks on land and two single marks on water. The maximum distance should not exceed 100 yards. The marks should have good separation to allow the judges an adequate opportunity to evaluate the dog's marking and memory. The test begins when the dog and handler leave the last holding blind. The dog will come to the retrieving line on lead. The dog must be steady at the line but can be restrained by the handler using a flat buckle collar. The Judges will release the dog after the mark has been thrown. Upon returning from the retrieve the Junior dog must deliver the bird to hand. Four Junior passes are required to earn the Junior Hunter title.

**Senior:** This is where the work begins. Senior level dogs will be tested in a minimum of four hunting situations including one land blind, one water blind (that may be run as a double blind on land and water), one double land mark, and one double water mark. There will be at least one diversion shot fired. The diversion shot is often used to set up the blind and may be fired on the return from the last mark. At least one of the hunting situations will include a walk-up. The walk-up mark will be thrown while the handler is walking to the line with the dog at heel. The handler will signal the dog to stop by voice or whistle command. Once the walk-up bird is down the second bird of the double retrieve will be thrown. Maximum distances not exceeding 100 yards. The Senior dog will leave the holding blind off lead and is expected to be steady at the line. The dog will also be expected to honor the working dog. Four Senior passes are required for the Senior Hunter title if the dog has already earned a Junior title. If the dog does not have the JH title, then five Senior passes will be needed.

**Master:** The big leagues. The Master level retriever will be expected to work off lead with a higher standard of control than the Senior Hunter. Master level Tests will consist of three series; land, water, and a land water combination. Multiple marks will be thrown at each series. Expect to see at least two triple retrieves. There will be a land blind and a water blind. One of the blinds will be a double blind in any combination. Expect to see more technically challenging concepts than Senior. At least one of the series will include a walk-up. Diversion birds and/or diversion shots will also be used. A diversion is a bird thrown while the dog is actively working and is usually thrown while the dog is returning from a mark or blind. Switching will result in failure. Maximum distances at the Master level should not exceed 150 yards. Five Master passes are required for the Master Hunter title – Six if the dog has not earned a Senior title.

If you are interested in getting started in hunt test competition I would recommend the following:

- Download a copy of the AKC rule book. Read through it, there's a ton of information.
- Find a local hunt test and go watch. There's no better way to learn then watching the tests, learning what to expect, and what will be expected of you. Sit in the gallery and talk to the handlers.
- Attend a seminar. Attending a Judge's Seminar is a great way to understand the rules of the game.
- Join a local retriever club. Most local clubs offer regular training days. Training days offer an excellent opportunity to see retrievers performing at all levels.

*Thinking about becoming an AKC judge? We can always use more Chesapeake judges. The Michigan Flyways Retriever Club will be holding an AKC Judges Seminar May 4 at the same location as the Michigan ACC Training Day. The Basic Seminar is one day of instruction on the AKC Hunting Retriever Program. The seminar is for individuals with an interest in becoming an AKC Hunt Test Judge and/or handlers who wish to learn more about the AKC Hunt Test Program. For more information see Entry Express or contact Cathy Brush, [cambrush@aol.com](mailto:cambrush@aol.com).*

*For a list of AKC Hunting Test - Retrievers Seminars check out the following website. [www.akc.org/clubs-delegates/clubs/resources/seminars/](http://www.akc.org/clubs-delegates/clubs/resources/seminars/)*

*Check the Calendar of Events page in the Bulletin and the Events page of the website to find information on the upcoming Michigan Field Training Day, the Minnesota Field Training Day and the ACC Hunt Test.*

# 2025 ACC National Field Trial Specialty

## Save The Date

**You won't want to miss this one!**

The 2025 ACC National Field Trial Specialty will be held September 16-18, in Burnham, Maine on Mike Coutu's "Chessie Way" property, home of the 2024 National Amateur.

Maine is a great destination in early Fall with moderate temperatures and plenty of fantastic sights to see. Plan on spending a couple days (or more) after the trial and make it a family vacation. And yes, there will be fresh lobster on the menu.

For more info contact [frank@pittelli.com](mailto:frank@pittelli.com) or check out the "2025 ACC National Field Trial Specialty" facebook page

### Committee Members

Frank Pittelli, Chairman, (410) 279-1939  
Linda Pittelli, Secretary, (443) 875-7862  
Tom Lind, Chief Marshal, (262) 514-3176  
Tim Carrion, Member, (410) 960-2039  
Wendy Chisholm, Member, (207) 659-0310  
Susan Aygarn, Member, (207) 461-8625

### Field Trial Entries

**\*\*\* Entry Deadline \*\*\***

**Monday, Sept 1, 2025**

All field trial entries for the Open, Amateur, Qualifying and Derby stakes will be handled via Entry Express.

Entries for the Puppy stakes may be submitted via Entry Express or may be submitted during the Monday night meeting at the Specialty. When registering a puppy less than 6 months old on Entry Express, set the Birth Date to be at least 6 months old so that the software will accept the entry.

Entry fee refunds for scratches before the closing date/time will be handled directly by Entry Express.

Entry fee refunds for scratches after the closing date/time will be handled by the Event Secretary/Treasurer. In such cases, refunds will be given based on the AKC refund policy, which requires a Vet note for bitches in season or dogs with medical problems. All other refunds will be at the discretion of the Event Secretary/Treasurer on a case-by-case basis.

### Schedule

Monday, September 15

8:00am - 3:00pm - Group training (TBD)

5:00pm - Meet & Greet at HQ (TBD)

First the highlights!!!

Congratulations to Bur Oak's Quigley On The Road From Valhalla for becoming QAA by getting a second place in the Qualifying at the Four States RC trial in November. She is owned by Heidi Henningson and Gary Kavan and was handled by Gary. YEA!!

The 2024 FT Summary and Perpetual Trophy winners are here too.

Congratulations to the dogs and their handlers that are listed.

Good luck in 2025.

I look forward to have a lot more results this year so go out and train those dogs!!!

Carol Knapp

# PERPETUAL TROPHY RECIPIENTS OF 2024

All of the trophies listed below are the property of the American Chesapeake Club and may not become the property of any individual. The trophies are awarded annually to members of the American Chesapeake Club. (Historical notes are from the May/June, 1996 ACC Bulletin.) The winners of the ACC perpetual trophies for field trial accomplishments in 2024 are as follows:

FC AFC CFC Nelgard's Baron CD Trophy Awarded annually to the Chesapeake of an ACC member that earns the most points in AKC licensed and member Open competition. The trophy was donated by Mrs. Walter S. Heller and was first awarded in 1963. Winner:

Liberty's Oh My Stars! owned by Christina Anderson and Bill McKnight

DC AFC Mount Joy's Mallard Trophy Awarded annually to the Chesapeake owned by an ACC member that earns the most points in AKC licensed and member Amateur competition. The trophy was donated by Mrs. E. C. Fleishman and was first awarded in 1962. Winner:

KUNG FU COWBOY owned by Erik Borg

CH Storm Cloud CD Trophy Awarded annually to the Chesapeake owned by an ACC member that earns the most points in AKC licensed and member field trial Amateur competition in the West Coast states and Idaho. The trophy was donated by Eloise Heller in 1966. Winner:

DC AFC Fireweed's The King OF Cool owned by Linda Harger and Tom Ivey

DC AFC Tigers' Cub CD Memorial Trophy Awarded annually to the amateur handler whose Chesapeake earns the most points in AKC licensed and member Open and Amateur competition. (The Open points must be earned by an amateur handler.) The trophy was donated to the ACC by Eloise Cherry in 1979 in memory of her dog Tiger's Cub. Winners:

ERIK BORG and CHRISTINA ANDERSON

FC Tiger of Clipper City Trophy Awarded annually to the Chesapeake owned by an ACC member that earns the most points in AKC licensed and member Qualifying competition. The trophy was first awarded in 1961. Winners:

CRACKSHOT TAKE HIM TO THE TRAIN STATION owned by Julie Cole and Scott Reed

CHUGACH'S JJ'S TOPSAIL TIKISHLA owned by Michael Vogel

FC/AFC Meg's Pattie O'Rourke Trophy Awarded annually to the Chesapeake owned by an ACC member that earns the most points in AKC licensed and member Derby competition. The trophy was first awarded in 1961. Winner:

BLACKWATER SIMMONS owned by Bill Burks

The Louis Traung Trophy Awarded annually to the Chesapeake owned by an ACC member that earns the most points in AKC licensed and member Derby competition in the West Coast states and Idaho. The trophy was donated to the ACC by Mrs. Louis Traung in 1962 and was originally a West coast trophy. Idaho was later added when several dogs were sold to Idaho residents who were supposed to trial them. (This addition was noted in a letter from Eloise Cherry that was received by the ACC many years later.) Winner: NOT AWARDED

FC AFC CFC CAFC Chesdel Chippewa Chief Trophy Awarded annually to the Chesapeake owned by an ACC member that earns the most points in AKC licensed and member field trial Derby competition in the Central and Eastern Time zones. The trophy was donated by Alex Spear in memory of his dog Chip. Winner:

BLACKWATER SIMMONS owned by Bill Burks

# Companion Sports

## Beginner Novice (BN)

CH Eastern Waters' Sacagawea BN

(GCHB CHMountainsides Shining Star of Baja, CGC x GCH CH Eastern Waters' Millinocket) Daisy earned her first leg on the Beginner Novice title at our National Specialty in late August. Her second and third legs were earned at the Feb. 22-23rd, 2025 obedience trials held in the Salisbury MD Kennel Club training building. Her score was 193 on Saturday and on Sunday she placed 3rd with a 190 1/2.

Daisy was bred by Betsy Horn Humer and Darren Sausser and is owned by Betsy and Rupe Humer (VA), - trained and handled by Betsy. Congratulations! Off to a great start!

## Excellent Agility Jumper (AXJ)

Ellie Dut-Chesse Bright Shining Girl JH OA AXJ NF WD CGC

(HRCH Susquidilla's Packer Marked by Decoy SH WDQ CGCA X CH MACH Pond Hollow Dut-Chesse Callista SH CD MXB MJB WDQ CGC) is proving that she is a force to be reckoned with. In true Ellie style, she completed her AXJ (excellent jumpers) with a blue ribbon. The standard course time was 48 seconds and she ran it in 28 seconds! For those in agility, that translates to 6.0 yards per second! Ellie truly loves this game and Rob has been able to keep up with her so far. Now to start earning MACH points. Bred, owned, and handled by Jill and Rob Conroy (NY). Ellie is now: Dut-Chesse Bright Shining Girl JH OA AXJ NF WD CGC Way to go Ellie and Rob!

## Performance Podium

### NACSW Odor Recognition Title (ORT)

"Just Joe" Next Generation's Brewed 2 Perfection @ Riverdel, STR ORT (MBIS NBISS MBISS GCHG Next Generations Accelerate x CH Next Generations Let Freedom Ring, MH) blazed through NACSW's Odor Recognition Test and earned his ORT title on November 17th shortly after he turned 6 months old. His drive to hunt and commitment to odor is strong and we look forward to seeing what's next for him in 2025! We plan to spend the winter progressing his training in multiple disciplines. Just Joe is bred by Jackie Kartak and Adam Levy, owned by Marty Smith/Adam Levy.

# Versatility Corner

Andy Snow and Bayside's Breakwater 'Jetty' CD BN RM RAE2 RE RA RI RN ACT2J NA NAJ CGCA CGC FITB NW1 NW2 CD-C

Bayside's Breakwater 'Jetty', a three-year-old brown female is trained, handled and owned by Andy Snow (MA). This petite little girl and Andy's "A" dog, has incredible drive and had quite a year. She earned her Rally Excellent (RE) Title at the Charles River Dog Training Club trial in Franklin, MA in March. In April, Jetty entered the Yankee Weimaraner Club Agility trial in N. Smithfield, RI and earned her Novice Agility (NA) and Novice Agility Jumpers (NAJ) Titles both in 1st Place (she's fast). In June, Jetty earned her National Association of Canine Scent Work (NACSW) NW2 Title. In July, Jetty earned her Canine Good Citizen Advanced (CGCA) and Fit Dog Bronze (FITB) Titles. In August we attended our first ever ACC Nationals and made a lot of new friends and had a ball. It was so special to connect with Tina and Joanne and to compete with my new besties in Rally Team. On September 13th, Jetty earned her Rally Advanced Excellent (RAE) Title at the Cranberry Cluster. An honor to do this on home ground in Cape Cod, Massachusetts. We have also been working hard on Obedience. In September, Jetty earned her Companion Dog Performance Sports (CDSP) Companion Dog (CD-C) Title.

Jetty earned her Rally Masters (RM) and RAE2 Titles on November 22nd at the Thanksgiving Cluster in Springfield, MA and was invited to the Rally Nationals in the Championship class. Jetty also earned her first two legs toward her Open Standard and Jumpers Agility titles at the Thanksgiving Cluster. It was a supported entry for Chessies and Jetty placed 2nd and 3rd earning some nice Chessie swag. Thank you to VeeAnn, Doreen and Jill for being so supportive. Jetty and Andy are currently focusing on Obedience and Agility, competing in Open, a whole different ball game. We entered our first NW3 trial and Jetty found all 10 hides and received a pronounced. I falsely alerted on Vehicles so no title but this girl is amazing and we'll get there. #BaysidesChesapeake

## Titles Earned in 2024

Rally Excellent (RE)  
Rally Advanced Excellent and 2 (RAE/RAE2)  
Rally Masters (RM)  
Canine Good Citizen Advanced (CGCA)  
Fit Dog Bronze (FITB)  
Novice Agility (NA)  
Novice Agility Jumpers (NAJ)  
Companion Dog (CD-C)  
Nose Work 2 (NW2)  
Woohoo! Way to go Andy and Jetty!

## NACSW Elite Championship (ELT-CH), AKC Fit Dog Gold (FITG), Alliance of Therapy Dogs (ATD)

"GIA" GCHB CH\* Next Generations Paragon at Riverdel, CD BN RA SWD SWME SHDE TKN ATT CGCU CGCA, NACSW ELT-CH (MBIS MRBIS GCHP CH\* Sandbar's Hardcore Hank, MH QAA x CH Next Generations Black Diamond, JH) GIA earned her NACSW Elite Division Championship title (ELT-CH) on 2/15/25 at the Jersey Shore Blue Claws Stadium in Lakewood, NJ on a cold snowy day - bad weather seems to be our MO for trials of late! GIA is only the 4th Chessie to earn this prestigious title with the NACSW, considered the crème-de-crème organization in the Nosework community. She followed this up the following weekend at an AKC trial going High in Trial Master by earning the highest combined qualifying scores in all the master searches offered including Handler Discrimination (HD), being the only dog to qualify in HD Master across 2 trials. GIA has also been busy making friends with the students and staff at the local middle school and is now a certified Therapy Dog with the Alliance of Therapy Dogs (ATD). She thoroughly enjoys all the petting and attention, and the kids love her silly smiles and tail wags. And last, but

not least, we finally got around to submitting all her activities to qualify for the AKC's Fit Dog Gold (FITG) designation, a combination of her pack walks, swimming, rally, and obedience titles. GIA is a fun dog; she's game to do/try anything! GIA was bred by Adam Levy and Max Broton-Anderson and is loved, owned, handled, and trained by Marty Smith.

## **DOG WRITERS ASSOCIATION OF AMERICA HERITAGE HUNTING DOG AWARD**

The Dog Writers Association of America, DWAA, is the most recognized writing association devoted to dogs. It was created February 13, 1935 at the Westminster Kennel Club dog show, with 8 founding members. Membership today is over 500, with writers, publishers, editors, and representatives of all media including print, audio, and web-based, encompassing photography and art as well.

The annual writing contest encourages excellence in all aspects of communication, and is open to all with no distinction between amateur and professional submissions. The awards program is traditionally held the day before Westminster, where winners receive the coveted Maxwell medallion, named in honor of Maxwell Riddle, a renowned writer of numerous books, judge of shows worldwide, breeder, and the founder of this competition.

Each year there are several Special Categories offered by sponsors who wish to encourage communication about dogs in a category that is important to them, and that they want more people to learn about. The winners of these Special Categories receive a cash award donated by the sponsor. This year DWAA is proud to announce that well-known Chesapeake breeder Adam Levy has sponsored the first-ever Heritage Hunting Dog special award, for publications about sporting dogs doing what they were originally bred to do.

Adam knows this subject deeply, as Chesapeakes he has bred and owned having achieved high levels of success in the field, including numerous Master Hunter titles and Qualified All-Age titles, and most importantly, being his personal hunting dogs for waterfowl hunting in the northern United States and Canada. Adam strongly believes that a quality field dog should also be correct to the standard, so his dogs have achieved the highest levels of success in shows as well and are dually titled and several have won Best in Show awards. Adam's Next Generation Gundogs epitomize the Heritage Hunting Dog vision.

This year, Adam joins the DWAA in congratulating this year's winner of the Heritage Hunting Dog award, "The Weimaraner Magazine", edited by Bonnie Hill. The award attracted numerous entrants, including articles about various sporting breeds and their role in conservation, field trials and other performance sports. ACC junior member Brynn McGuire was a finalist for the award, itself an honor, with her article on raising Chesapeake puppies. Thank you, Adam, for focusing positive public attention on our hunting dogs, dogs who can still do what they were originally bred to do.

Emelise Baughman

# The Use of Genetic Tests in a Chesapeake Bay Retriever Breeding Program

Kimberly Hitt, DVM and Moira Frank, PhD are writing this series of articles as members of the Health Committee to help educate our membership on genetics in a breeding program with regards to the Chesapeake Bay Retriever and specifically the tests available to our breed. We will first introduce ourselves, discuss why the knowledge of genetic tests is important in breeding decisions, review the basics of genetic inheritance, review the specifics of genetic tests available for Chesapeake Bay Retrievers and why culling dogs from a breeding program who test as carriers is not always the right choice. This will be a series of articles published in The ACC Bulletin as it is too much information for just one article.

Kim Hitt

I got my first Chesapeake Bay Retriever, Wally, in 1996 when I was just 10 years old. He was by no means a 'show dog' but I had fun showing him in Junior Showmanship, learning about obedience training and my mom learned about field training putting a Senior Hunter on him herself. We then got our first 'show dog' Chesapeake in 1999, Allegro, who I was able to get a Championship on, I showed her in Junior Showmanship, we earned some obedience titles, a Junior Hunter and I started agility with her. She was also the foundation bitch for our breeding program, Sedgeblac Retrievers, having 2 litters of puppies - one litter we continued breeding and showing while our 'pick' puppies from the other litter we spayed and neutered and did not continue in our breeding program because the father developed Degenerative Myelopathy - before there was a genetic test available to help with breeding decisions. I have a relatively small breeding program, only having ever bred 8 litters in the past 18 years, but I have put numerous Championships & Grand Championships on dogs including multiple Bred-by-Exhibitor Championships, I have had dogs ranked in the Top 10 for conformation, I have won Best of Breed/NOHS BOB/Bred-By BOB at the National Championship Dog Show in Orlando, I have won top honors at National Specialties including: Winners Dog, 1<sup>st</sup> in Brood Bitch multiple times, Judges Award of Merit, Best Veteran In Specialty, Best Junior Handler, and Best in Veteran Sweeps; I trained and handled the first Chesapeake Bay Retriever to the RACH title, I have titled multiple dogs to a MACH, I have attended the Agility Invitational multiple years and there are two dogs I have bred overseas who have been very successful. In my professional life I graduated from Michigan State University in 2008 with my undergraduate degree in Zoology with a concentration in Genetics. I also worked in two separate Genetics Laboratories at MSU learning about genetic inheritance, development of genetic tests, comparative genetics medicine and population genetics. I then graduated from Mississippi State University in 2012 with my DVM degree and while there I was awarded a summer long externship at the University of Missouri where I was on the team working to develop a genetic PCR test for identification of pinworms in research mouse populations.

Moira Frank

I live in southern Germany with my husband Matthias and our 4 Chesapeakes: Lekhaim (15 years), Fifty (16 years), Gotha and Tebro (9 years). I have a degree in Italian Literature and a post-graduate specialization in Archival Science. Before I moved to Germany worked for many years in the conservation of cultural heritage in Italy, with a particular focus on ancient documents and libraries. This background, combined with the fact that I attended a high school with a scientific focus, allowed me to easily understand genetic issues and interpret pedigrees. Matthias comes from a 200-year veterinary tradition-we just celebrated the anniversary last year! - and runs a small animal clinic in Freiburg. Dogs have been a part of our lives for a long time! We purchased our first Chesapeake in 1996 in Northern California when Matthias was working for a year at UC Davis Veterinary School. We have been members of the American Chesapeake Club ever since. With our first dog, Drake - Trialer/IT/INT/FR/VDH CH Dustin's Francis Drake\*\* - I started training and attending FTs and dog shows in Europe. With our Pepper - FR Dual CH/DT/VDH/INT CH Caroway's Sergeant Pepper\*\*\* JH WDQ - a well-bred female from the renowned Caroway breeding, I managed to finish two FT championships. She was the first Dual Champion Chesapeake, Amateur and Open FT Champion, as well as a Multiple Show Champion and the foundation of all our breeding. Cider, the daughter of these two dogs, - FR CH/FR TF CH/VDH/DT/INT CH SedgeGrass Acid Test\*\*\* - bred, trained and handled by me, was the youngest Chesapeake in Europe to win an FT title, finishing Amateur at less than two years old. To date, mother and daughter are both undefeated. I visit the specialties (Show and Field Trial) of the American Chesapeake Club whenever possible. As a member of the Breed Commissions of the German and French Retriever Clubs, I have made all my knowledge available for the improvement of the breed. I have written numerous articles for magazines and participated in a special on the breed produced by Sky TV. Since 2004 I have been an FCI Field Trial judge and have judged national and international competitions in almost all European countries. In 2012 I was on the jury of the European Challenge Cup for Retrievers, the most important European FT event, and the French Cup in 2018. Since 1996 I have trained and participated with all our dogs in competitions and dog shows in several European countries; since 2001 I have been breeding Chesapeakes with the "SedgeGrass" affix. I breed selectively and limitedly, in 25 years I have produced 14 litters, often importing semen from the United States, and I have exported my puppies to almost all European countries and South Africa. Our puppies are bred to maintain specific traits and qualities of the breed, working and morphological, without indulging in excesses, together with an unquestionable good character and good health.

Before we get into specifics, we are of course here to emphasize the importance of genetic testing in a breeding program but please remember it is only a tool in your tool-belt when making breeding decisions - it should not be the sole reason for inclusion or exclusion of a dog from a breeding program. Appropriate breeding decisions need to address both the potential loss or gain of genetic diversity and desired phenotypes in a population, as well in your breeding program. The entire dog and pedigree need to be assessed including health parameters of concern in our breed, the particular phenotypes you are looking for in the pairing (coat, eyes, shoulder assembly, size, etc), temperament, trainability, and Coefficient of Inbreeding just to name a few.

As Dr. Jerold Bell, DVM, adjunct professor of genetics at the Cummings School of Veterinary Medicine at Tufts University and a genetic advisor to national parent breed clubs, points out, dog breed survival relies on maintaining the breadth of genetic diversity and quality traits: “Breed genetic diversity has to do with maintaining unique lines, not on measurements of homozygosity or heterozygosity,” he says. “The most common genetic diseases seen by veterinarians every day in their practices are due to ancient liability genes that originated in ancestors that preceded the separation of breeds,” says Dr. Bell, “these include allergies, hip dysplasia, heart diseases, cataracts, cruciate ligament disease, hereditary cancers, and others. They occur in purebred and mixed-breed dogs.” Deciphering a genetic soup of panel DNA health test results to determine what is relevant to an individual breed and individual breeding program can be overwhelming.

“Inappropriate genetic tests limit your ability to pay attention to what is meaningful,” Jerold Bell, DVM. Leigh Anne Clark, PhD, associate professor of genetics at Clemson University, advise, “if a disease is not a problem in your breed, don’t make it a problem. Then, more dogs can be used for breeding. Breeders have free will to decide what is most important to them in their breeding and health programs.” From this perspective, pedigree analysis remains an invaluable tool for breeders, as understanding the lineage of a breed is essential for determining the necessary tests to perform. Along with choosing genetic health tests for their breeds, parent clubs weigh in on the best testing labs to perform health screenings. The myriads of choices and lack of standardization among genetic testing labs in the U.S. and worldwide led to the development of the Harmonization of Genetic Testing for Dogs (HGTD) initiative in April 2017.

About 65 percent of heritable diseases are autosomal recessive conditions compared with polygenic or genetically complex diseases, notes Dr. Clark. Dr. Bell agrees, adding that “the majority of the 65 percent of recessive mutations are rare diseases, while the most frequently seen genetic diseases are complexly inherited.” In reality, only a small number of dogs are used to produce the next generation, Dr. Bell says, “influential ancestors are different from popular sires. “An influential ancestor remains influential because his descendants for each generation are evaluated against other individuals and they are decided to be used for breeding. That’s how that ancestor continues their influence through multiple generations of descendants whereas a popular sire, the only way to evaluate him is based on his phenotype, what he looks like, and not based on his genotype or what he will produce overtime. “With popular sires, males are bred without the benefit of an evaluation over time, resulting in the loss of other quality male lines and potentially contributing to deleterious genes.” And Dr. Bell continues “Breed specific genetic disorders are due to recent mutations and result from the expression of specific deleterious genes, an increase of breed-related diseases is due to homozygosity of deleterious recessive or additive liability genes that have accumulated primarily because they are not expressed by the carriers in the heterozygous state. An unaffected carrier can perpetuate the spread of deleterious genes, which can increase in frequency if linked to positively selected genes, or through genetic drift, which is the random accumulation of disease liability genes in the absence of selection.” For many genetic disorders, genetic tests are available to identify carriers. Dr. Bell advises breeders to breed quality carriers to non-carrier dogs and replace the carrier parent with a quality non-carrier offspring. “In this way breeding lines – and breed genetic diversity – are not abandoned, and testable disease liability genes can be lost in one generation,” he says. Meanwhile, for other disorders genetic screening and medical history help to differentiate normal from affected dogs. “The selection against disease-causing genes is the only way to reduce the transmission of genetic diseases. Ensuring that the parents are healthy is key to the health of the offspring. If all breeders include pre-breeding genetic screening in their mate selection, then dogs will be healthier,” Dr. Bell says. The bottom line is that there’s no simple or easy way to approach dog breeding. It’s a complex process with no quick fixes. Having a solid understanding of genetic testing, along with effective breeding strategies to produce healthy dogs without compromising the breed’s quality, is a crucial challenge and more important now than ever.

A glossary of terms which will be used in the articles:

- Coefficient of Inbreeding (COI): A statistic that estimates the level of inbreeding and the probability of inheriting two copies of the same allele from an ancestor that occurs on both sides of the pedigree. For a mating that would result in offspring with an inbreeding coefficient of 10%, there is a 1 in 10 chance that any particular locus would have two copies of the same allele, and 10% of all of the genes in an animal will be homozygous
- Gene: In molecular biology and genetics, it indicates the fundamental hereditary unit of living organisms.
- Genotype: It refers to the set of all genes that make up the DNA (genetic set / genetic identity / genetic constitution) of an organism or population. Each gene, individually and/or cooperatively, contributes differently to the development, physiology and functional maintenance of the organism. Genotype is everything found in the chromosomes. The genotype alone does not define or determine the phenotype, but rather interacts with the environment (external or internal) in determining it.
- Phenotype: Everything we can observe of an individual. The set of observable characters. It is the set of all the characteristics manifested by a living organism, therefore its morphology, its development, its biochemical and physiological properties including its behavior. Phenotype is the result of the interaction between the genotype and the environment.
- DNA: It is the nucleic acid that contains the genetic information for the development, homeostasis and reproduction of all known living beings.
- Chromosomes: Structures inside cells that contain an individual’s genes. Genes are contained in chromosomes, which are based in the cell nucleus. The chromosome contains from hundreds to thousands of genes. They are present in even numbers; in fact, they are arranged in pairs formed by one chromosome of paternal origin and one of maternal origin. Dogs have 78 chromosomes.

- **Allele:** It is one of the several forms in which a gene can present itself. An allele is one of two or more versions of DNA sequence (a single base or a segment of bases) at a given genomic location. An individual inherits two alleles, one from each parent, for any given genomic location where such variation exists. If the two alleles are the same, the individual is homozygous for that allele. If the alleles are different, the individual is heterozygous.
- **Homozygous and Heterozygous:** In cells, each gene is normally present in two forms, called alleles, each of which is inherited from one of the parents. If the two alleles of a given gene are the same, the organism is called homozygous for that trait; otherwise, if the two alleles are different, it is called heterozygous. In heterozygous, the contribution of the maternal and paternal allele is different.
- **Character:** In biology, a character is any characteristic of an organism; this attribute is determined by the genetic information contained in one or more genes in the same organism. It should not be confused with the phenotype which does not indicate the character but rather the state in which it is found.
- **Autosomal:** Autosomal means that a specific gene is not on a sex chromosome and is a numbered chromosome. Dogs have 78 total chromosomes. Each of parents gives 39 chromosomes via the egg or sperm, for a total of 78. There are two sex chromosomes (X and Y) and 38 numbered chromosomes. The numbered chromosomes are the only chromosomes that use autosomal inheritance patterns.
- **Autosomal dominant & Autosomal recessive:** Autosomal dominant traits pass from one parent onto their progeny. Autosomal recessive traits pass from both parents onto their progeny. Autosomal refers to the 38 numbered chromosomes as opposed to the sex chromosomes (X and Y). An allele is defined as dominant if the corresponding phenotype occurs whether the genotype is homozygous or heterozygous; it is defined as recessive if the phenotype occurs only if the genotype is homozygous. If a parent has an autosomal recessive trait, they'll show no symptoms. In order to pass it on to their progeny, both parents need to carry the trait.
- **Mendel's laws:** The laws refer to those characteristics that are controlled by a single gene and therefore concern the hereditary transmission of monofactorial characteristics. A specific characteristic of an individual can be determined by a single gene or by multiple genes; in the second case we therefore speak of alleles.
- **Polygenic character:** A character determined by the coordinated expression of several genes, which tends to vary quantitatively from one individual to another and is not transmitted according to Mendel's laws.
- **Genetic mutations:** Changes in the DNA nucleotide sequence. Mutations create new alleles and increase genetic variability. Genetic mutations are changes to DNA sequence that happen during cell division when cells make copies of themselves. Genetic mutations could lead to genetic conditions, or they could help better adapt to the environment over time.
- **Genetic drift:** Random changes, generation after generation, of gene and genotypic frequencies in small populations, due to a sampling effect: it is all the greater the smaller the population. Genetic drift can alter the frequencies of advantageous, neutral, and harmful alleles alike.
- **PRA – Progressive Retinal Atrophy:** A late onset inherited eye disease resulting from Rod-Cone Degeneration in the Retina.
  - This disease has an Autosomal Recessive Inheritance
- **EIC – Exercise Induced Collapse:** an inherited neuromuscular disease causing exercise intolerance in apparently healthy dogs.
  - This disease has an Autosomal Recessive Inheritance with Variable Expressivity
- **ED – Ectodermal Dysplasia:** an inherited condition where dogs are unable to produce a protein for the tight adherence of skin cell to one another, affected dogs often die within hours or days of birth, those that do not will experience skin sloughing on the ears, footpads, sites of friction and junctions of mucous membranes and skin
  - This disease has an Autosomal Recessive Inheritance
- **DM – Degenerative Myelopathy:** An inherited neurological disorder which is the canine equivalent of Lou Gehrig's Disease. Initial presentation will be loss of coordination typically in the hind legs and progress to being fully paralyzed in 6 months to 2 years from the onset of clinical signs.
  - This disease has an Autosomal Recessive Inheritance with Incomplete Penetrance
- **CDDY – Chondrodystrophy:** An inherited condition causing disproportionately short legs which is associated with increased risk of Intervertebral Disc Disease (IVDD). This mutation is found on Chromosome 12.
  - This disease has an Autosomal Dominant Inheritance with Incomplete Penetrance
- **CDPA – Chondrodysplasia:** An inherited condition causing short-limbed or disproportional dwarfism. This mutation is found on Chromosome 18.
  - This disease has an Autosomal Dominant Inheritance
- **IVDD – Intervertebral Disc Disease:** is caused by herniation of the intervertebral disc into the spinal cord

## LORRAINE BERG

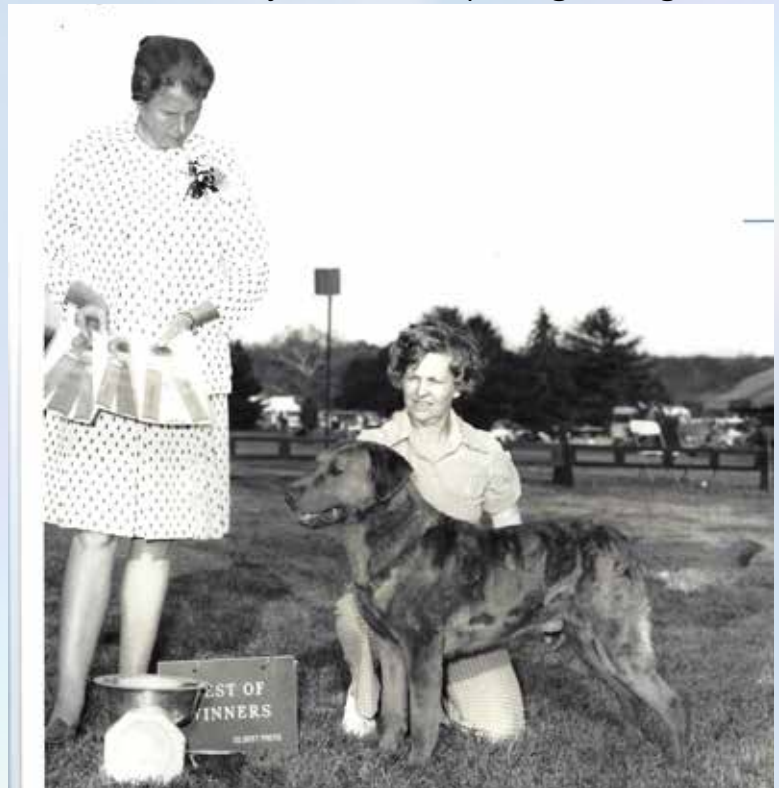

The Chesapeake breed lost an ardent supporter and breeder with Lorraine Berg's death Feb 25<sup>th</sup>. Her husband Ray who shared the interest in the breed had passed a few years earlier. Lorraine served the club in many capacities-VP 1988-1989; Pres 1989-1992; Chair of the 1993 Standard Revision Committee; wrote a chapter on shows in 1977 ACC book and was as active RD. They hosted Chesapeake gatherings on their farm in Fremont, WI. Besides her love of the Chesapeake, Lorraine was an accomplished artist-she carved decoys, did wood working and cast aluminum silhouettes of the breed used in trophies. In 1988, she judged the sweepstakes at 1988 NSS in Michigan.

The first breedings she and Ray did carried the prefix "Ray's" but later litters were registered as "Chesapine" The most successful show champion (1971) was Ch\* Ray's Drake of The Pines WD handled by Ray who won 2 group placements. Lorraine described him as "Drake never cared too much for showing-his great joy was hunting. When he was about 6 mos. old, Ray took him hunting for the first time, that year we had a one mallard limit per day. Drake kept finding crippled ducks faster than Ray could throw them back or hide them. Ray never got to fire a shot all day." (*Complete Chesapeake Bay Retriever* 1981 Cherry).

The first Chesapine champion was Ch Chesapine Coco in 1972. Ch Woodrivers Shea of Chesapine was BW/WD at 1976 ACC NSS. In all there were 16 champions bred. One, Ch Rockrun Penny Popcorn, was a foundation bitch for Rockrun kennel.

Personally Lorraine and I corresponded for years until her sight failed. She emphasized to me the need for the Chesapeake to be a "true" dog-capable in many areas and steadfast in its purpose. She preferred a well boned medium sized dog. In an interview I did with her for an article in *Retriever International*, this description she gave of the breed's character has always stayed in my mind. "Dogs should come into the ring or up to the line with an air of confidence. One (CBR) with a strong level gaze that takes the measure of any judge or situations confronting them."

Thank-you Lorraine for all the good advice and hours of friendship. Dyane Baldwin

**NOTICE** to all ACC members who wish to be included on the Breeder List or who wish to place a classified ad:

## BREED HEALTH STATEMENT

The American Chesapeake Club (ACC) Board of Directors and the ACC Health Committee approved the following Health Statement for Chesapeake Bay Retrievers: The ACC Board of Directors strongly recommends that all breeding stock be free of Hip/Elbow Dysplasia, Progressive Retinal Atrophy (PRA) in addition to all hereditary eye diseases, Exercise Induced Collapse (EIC), and Degenerative Myelopathy (DM) -tested Normal or otherwise. The above health statement was proposed by our ACC Health Committee then approved by the ACC Board of Directors on September 11, 2016, (ACC Board Motion 16:39).

## BREEDER LIST/CLASSIFIEDS COORDINATOR

Ann Law  
6 Grant Street  
Riverside, NJ 08075-3723  
annlaw0331@gmail.com

## BREEDERS' LIST GUIDELINES

Requirement that to have any ad placed on the ACC Website all Advertisers (Breeder, Puppy, Older Dogs, Stud Dogs) must be a "Members in Good Standing" for a period of 1 year or more. To take effect starting January 24, 2024. 24:11 (Suellen Appellof, Robyn Haskin) Approved 1/24/2024

Inclusion on the list and removal from the list is by member request to the Breeder List/Classifieds Coordinator. See contact information above to request an ACC Breeder List Application.

## CLASSIFIED AD SUBMISSION GUIDELINES -

Guidelines cover all ads for Stud Dogs, Puppies, and Older Dogs.

The absence of OFA/CERF/PRA/DM/EIC information indicates to the buyer that they should inquire about these conditions/clearances. Inclusion on these classified lists does not imply endorsement by the ACC or guarantee health clearances. The ACC accepts ads in good faith. Guarantees or warranties (expressed or implied) are the sole responsibility of the advertiser.

All ads must be submitted by filling out an online form that is available at [amchessieclub.org/how-to-submit-an-ad/](http://amchessieclub.org/how-to-submit-an-ad/). Alternatively, a paper copy of the form can be requested from the coordinator. Submit an online form or mail a paper form to the address below.

Stud Dog/Puppy/Older Dog Ads: Bulletin ads are due according to the Bulletin submission deadlines. Bulletin due dates will be strictly adhered to. Any Bulletin ad received after the Bulletin deadline will be published in the following Bulletin. Web ads are not subject to Bulletin deadlines and can be submitted at any time. Any ad can be removed at any time at the request of the member.

Stud Dogs: Included in 6 Bulletin issues and on the website for one year. Stud dog owners will be asked to confirm inclusion on the list annually (in December).

Puppy/Older Dogs: Owner will indicate expiration date for ad.

Note to breeders: Be cautious as to whom you respond to in conjunction with your puppy ads. Some breeders have been receiving emails from pet dealers.

## GLOSSARY OF COMMON SYMBOLS / ABBREVIATIONS:

\* Dog has placed in the Sporting Group

\*\* Dog has placed in licensed Field Trial derby or qualifying stake.

\*\*\* Dog is a qualified all-age field trial dog.

**Older Dogs**

**(PA) WILLOWCREEK REDWAVE FOLLOW MY LEAD ("MUDDIE")**

**Sire: GCH CH Chessieville Bay Viking Warrior X Dam: CH SilverCreek That Girl at Willowcreek**

Muddie is a DG female. She is a wonderful companion, loves to retrieve, good with people, children, small dogs and male dogs. She is dominant with female dogs. She is a larger girl, clear for PRA, EIC, DM, EDSF. Does not carry long coat or dilute. She does carry AGOUTI, CREEPING TAN, MELONISTIC MASK. She is up to date, current with heart worm, flea and tick. She is covered by AKC health insurance.

## DONATE NOW TO THE ACCCT

All donations are tax deductible. Remember, the more you give the more we can do! Visit the ACCCT Website to find out more about how you can contribute to our Breed, the Chesapeake Bay Retriever.

ACCCT Website: [ACCCT.AmChessieClub.org](http://ACCCT.AmChessieClub.org)  
or contact *Diane Mazy, Trustee Chair* (208) 861-7706

The American Chesapeake Club Charitable Trust is an independent registered 501(c)(3) nonprofit organization supporting Chesapeake Bay Retrievers in the areas of health, education and rescue. All donations to the Trust are tax deductible. Please visit the ACCCT's website to make a donation directly to the Trust.

## OUR MISSION

- To foster and promote the public's knowledge and appreciation of dogs in general and the Chesapeake Bay Retriever in particular.
- To further the understanding of the diseases, genetic anomalies and injuries which affect dogs in general and the Chesapeake Bay Retriever in particular.
- To support and promote the study of, and research on, the history, character, breeding, genetic and particular health problems of the Chesapeake Bay Retriever.
- To establish and maintain databases in support of charitable, educational, research and rescue efforts.
- To develop information and make it available to the general public, Chesapeake Bay Retriever breeders, veterinarians and other dog care/training professionals, exhibitors and owners.
- To educate the public, breeders and fanciers on responsible dog ownership, including the spaying and neutering of pets, and to ensure the humane and effective rescue of any Chesapeake Bay Retriever in need.

Tell us about your first  
Chesapeake Bay Retriever!  
Send to: [editor@amchessieclub.org](mailto:editor@amchessieclub.org)

## Extra Bulletin Copies

Member fee \$7.00 per issue  
Non-member fee \$10.00 per Issue

[editor@amchessieclub.org](mailto:editor@amchessieclub.org)

## HEALTH COMMITTEE

### ACC RECOMMENDED HEALTH TESTS

#### For All Breeding Stock

The ACC Board of Directors strongly recommends that all breeding stock be free of Hip/Elbow Dysplasia, Progressive Retinal Atrophy (PRA) in addition to all hereditary eye diseases, Exercise Induced Collapse (EIC), and Degenerative Myelopathy (DM) – tested Normal or otherwise. The above health statement was proposed by our ACC Health Committee then approved by the ACC Board of Directors on September 11, 2016, (ACC Board Motion 16:39).

## American Chesapeake Club CODE OF ETHICS

Love and respect of the Chesapeake Bay Retriever is implicit in membership in the American Chesapeake Club. Therefore, all members agree to foster the goals set forth in the Code of Ethics.

### RESPONSIBILITIES OF MEMBERS

a. Read and familiarize yourself with the American Chesapeake Club Breed Standard for the Chesapeake Bay Retriever that is approved by the American Kennel Club. Support and abide by the rules of the American Chesapeake Club and the American Kennel Club.

b. Appreciate the unique nature of the Chesapeake Bay Retriever and try to develop the characteristics this dog has inherited through selective breeding (intelligence, desire to mark and retrieve with style, love of water, and keen scenting ability).

c. Assume the responsibility of proper feeding, maintenance, health care, and training at all times.

d. Always conduct yourself in a manner which will reflect credit on yourself and the breed. Refrain from public criticism or malicious degrading of others or their dogs, whether in person, on social media, or otherwise.

e. Never knowingly sell or place a Chesapeake Bay Retriever with unethical persons or those who would not provide proper and humane care to the dog. Refuse to sell any Chesapeake Bay Retriever to any pet shop or to any wholesale dealer in dogs.

f. Should you become aware of the mistreatment, abuse, or need for relocation of any Chesapeake Bay Retriever, make every effort to be of assistance by notifying the breeder of the dog involved, the local authorities, and helping in any other way in which you are able.

### RESPONSIBILITIES OF BREEDERS/ BROOD BITCH/STUD DOG

The ACC Board of Directors strongly recommends that all breeding stock be free of Hip/Elbow Dysplasia, Progressive Retinal Atrophy (PRA) in addition to all hereditary eye diseases, Exercise Induced Collapse (EIC), and Degenerative Myelopathy (DM) - tested Normal or otherwise.

a. Do not breed Chesapeake Bay Retrievers that are not registered by the American Kennel Club or by kennel clubs recognized by the American Kennel Club.

b. Strive in each breeding to improve the breed according to the ACC Breed Standard. Conscientiously plan each breeding based on the parents of the appropriate temperament, appearance, and other desirable qualities.

c. Be aware of genetic defects which can be harmful to the breed. When breeding, endeavor to select animals that will reduce the incidence of genetic problems while enhancing the positive attributes and abilities of the breed. Be open with all persons interested in the welfare of the Chesapeake Bay Retriever and discuss possible physical or temperament defects in your own stock.

d. Do not breed any bitch which is not mature (never before the second heat) and in good health. Do not allow puppies to go to their new homes until at least seven weeks of age.

e. Act responsibly toward all puppies produced by your brood bitch or stud dog for the lifetime of the puppies. (Recommend that the breeder encourage the owner to contact the breeder if the owner can no longer keep a dog at any time in the dog's life).

f. Understand that written contracts are strongly recommended for all transactions, such as sales, guarantees, co-ownerships, breeding rights agreements, bitch leases, stud services, etc. Keep accurate records and pedigrees and give new owners registration papers or forward registration papers as soon as possible.

g. Use and promote the use of the American Kennel Club non-breeding registration on pet quality puppies which are sold or placed by you.

## American Chesapeake Club CBR DATABASE

As the keepers of the breed and the parent club's mission to providing information regarding the health and history of the breed to our members and the public, the breed database is more than a health database, it combines titling and health test results from all sources. In addition to the OFA results we permit owners to enter results from any testing lab as a free public service. Owners and breeders can submit new dogs, test results, personal notes, and photos of their dogs.

ADDRESS SERVICE REQUESTED

## Rescue Volunteers!

If you have considered becoming involved, contact:

**RESCUE COORDINATOR**  
Heidi Henningson  
(402) 658-8389  
buroak@mail.com

## ACC Rescue Wish List

### HELP US, HELP THEM!

**RESCUE or FOSTER** Applications are available from Heidi Henningson, the Rescue Coordinator, or visit the rescue page on the website.  
<https://amchessieclub.org/acc-rescue-service/>

Rescue does not need to cost anything for a volunteer. Rescue funds are available and adoption fees are charged for all rescue dogs. Being a Rescue volunteer reaps huge rewards!

ACC Rescue is always in need of:

**FOSTER HOMES** - Even if you only foster occasionally.

**SUPPLIES** - Heartworm and Flea & Tick prevention medication, dog food, toys and treats.

**KENNEL RUNS** - New or used!

**TRANSPORTATION** - No distance is too short. If you are planning a trip, contact the Rescue Coordinator, Heidi Henningson, to arrange a ride for a rescue dog.
