

Health (Chesapeake Bay Retriever Health Clinic)

Project Title: 2026 National Specialty Comprehensive Health Screening Clinic

Objective: To reduce the financial barrier for breeders to conduct essential health screenings by providing subsidized testing at the National Specialty.

Project Description:

- **Target Audience:** ACC members and Chesapeake Bay Retriever owners attending the National Specialty.
- **Activities:** Funding will be used to secure specialized veterinary technicians to perform OFA eye examinations, cardiac ultrasounds, and DNA swab collection.
- **Alignment with Mission:** Directly supports the ACC mission of advancing breed health through proactive screening and data collection.

Budget Breakdown:

- Veterinary Specialist Travel/Fees: \$3,000
- Medical Supply/Equipment Rental: \$1,500
- Administrative/Filing Fees: \$500
- **Total Requested: \$5,000**
