

## **Rescue (Emergency Medical & Rehabilitation Fund)**

**Project Title:** Breed-Specific Rescue Medical Intervention Program

**Objective:** To provide immediate financial assistance for life-saving medical procedures for Chesapeake Bay Retrievers in the ACC Rescue network.

### **Project Description:**

- **Target Audience:** Rescued Chesapeake Bay Retrievers currently under the care of [National Breed Rescue/501(c)3 partner].
- **Activities:** Grant funds will be allocated specifically for non-routine medical expenses such as orthopaedic surgeries or heartworm treatments.
- **Alignment with Mission:** Ensures that the high cost of medical care does not prevent a breed-specific rescue from taking in at-risk dogs.

### **Budget Breakdown:**

- Emergency Surgical Fund: \$3,500
- Rehabilitative/Physical Therapy Costs: \$1,500
- **Total Requested: \$5,000**
